No Hope For Indians

Put Uni, a 22-year-old American, feels she will never see a solution to Canada's Indian problem. She told a meeting in the JCR Wednesday what she and others are trying to do about this dilemma.

A member of the Student Newswatch Partnership Project, Mrs. Uni, who is about to graduate in Zoology at the University of Toronto, says she will stay in the city in order to work on the problem of Indians. She is in contact with local agencies dealing with the problem and is also trying to get some Indian help to put the ideas of the group into practice.

Stressing the importance of education, Mrs. Uni said that she had suggested to Indian leaders the idea of an Indian university, and that they had agreed to it. She said she was going to try to get some Indian students to come to the University of Toronto and take courses in Indian studies.

The group plans to hold a meeting with Indian leaders next week, and Mrs. Uni said she was looking for support from the Indian community in Toronto. She said she felt that the Indian community should take the lead in finding a solution to the problem.
